PT SINERGY TEHNIK UTAMA

Authorised Distributor of BÜRKERT

At Bürkert

We Love Fluidic Challenges

ABOUT US

PT Sinergy Tehnik Utama was established on December 7, 2009, in a strategic and promising area within Greater Jakarta. Since its inception, the company has been based at Rukan L'Agriicola Blok A No. 51, Tangerang City, and has continued to grow in line with increasing customer demands.

As an authorised distributor of Bürkert Fluid Control Systems, we provide solutions for a wide range of process industry needs, including Fluid Control Systems, Pressure Control Systems, Level Control Systems, Temperature Control Systems, and Analytical Control Systems.

We combine deep local expertise with a comprehensive range of fluid control solutions, including solenoid valves, process and control valves, sensors, transmitters and controllers, industrial automation and pneumatics, mass flow controllers, and customized system solutions.

Our distribution coverage spans multiple regions in Indonesia, including Banten, West Java, Cikampek, Cilegon, Medan, Riau, Lampung, East Kalimantan, West Kalimantan, Bali, and Kupang. With more than 25 years of experience in the field, we are committed to delivering reliable solutions and excellent service to meet our customers' needs.

VISION & MISSION

VISION: To be a service company that delivers integrated business & control solutions with strong fundamental know how and experiences gained in control system, instrumentation, and information technology.

MISSION: 1. We provide high value-added solutions that satisfy the evolving needs of valuable customers using Burkert worldwide competence and technology.

2. As an integral part of Burkert global organization, we will lead our international affiliates in capitalizing on opportunities in the Indonesia market, contribute unique Indonesia capabilities to Indonesia Industrial growth.

3. As a member of Indonesian society, we will enhance our individual value together with all employees contribute to the society, through es-tablishing PT. Sinergy Tehnik Utama to be the most excellent and favour-able company in this region.

PT SINERGY TEHNIK UTAMA

Since the establishment of our company, we have consistently focused on providing the best services along with the right products tailored to our customers' specific needs. Our clients come from a wide range of industry sectors, resulting in a highly diversified customer base. To meet these varied requirements, we have developed an extensive scope of supply that encompasses several key industry segments, including:

For over 25 years, we have acquired invaluable knowledge and experience in serving and understanding our customers' demands - enabling us to consistently meet, and often exceed, their expectations. We are proud to have grown into the company we are today, a growth made possible by the continued trust and satisfaction of our clients.

PT SINERGY TEHNIK UTAMA

We are committed to delivering products and services of the highest standards to our valued clients, who are strategically located across key industrial cities and zones throughout Indonesia. These areas represent significant hubs of economic and manufacturing activity, and include:

This broad coverage reflects our dedication to supporting national industrial growth and ensuring timely, reliable service wherever our clients operate.
